A message from the Vice-Chancellor Martin Bean

At RMIT we focus on giving everyone the chance to be their best, shape their future and belong.

Thanks to the passion of our extraordinary people and our commitment to transformative education and research, we're making that a reality every day.

It began back in 1887 when Francis Ormond had a vision for helping workers acquire real-world skills. The people of Melbourne matched his enthusiasm to start a very practical place of learning where students would leave ready for employment.

We still live this vision today. As society and the economy have become more sophisticated and complex, RMIT has grown and changed alongside. Now, we're a global university of design, technology and enterprise.

We exist to prepare our students for workplaces that are rapidly evolving, and we play a part in shaping a changing world.

RMIT has been part of every new development in work and industry since our inception.

We're passionate about the communities we're part of and we're driven to make a purposeful contribution.

That's why we shape the world with our research and impactful partnerships with industry, government and enterprise.

We provide life-changing experiences when we give our students their first, second or even third opportunity to prepare for the world of work they aspire to.

Because today, more than ever, the transformational power of education is lifelong, generations deep and worldwide.

The one certainty is more and greater change in every industry and every location.

So with the world unlike it's ever been before, we're focused on ensuring our students are ready for life and work, whatever form that takes.

At RMIT, as we look to 2022 and beyond, we're excited about the possibilities.

Martin Bean CBE
Vice-Chancellor and President
